

TELEGRAPH SERVICE TO UNITED STATES

AIM TO SECURE PAR-AMERICAN PLANE TRAFFIC

Projected Atlantic Service
to Link Great Britain
and Canada Discussed in
British House.

LONDON, March 12.—The new transatlantic air service planned to link Britain and Canada, will be extended to the United States because of the "obvious advantage" of securing a portion of America's mail and passenger traffic, Sir Philip Sassoon, under-secretary for air, told the House of Commons last night.

During a discussion of the projected service, Craven Ellis, Conservative, suggested that the government, when considering location of terminals on the North Atlantic, should bear in mind the fact that the government of Nova Scotia, recently had transferred a stretch of land covering 1,800 acres to the British Trans-Atlantic Corp.

SEAPLANE BASE
He said the site was designed for use as a seaplane base and airport in the event the Trans-Atlantic Corporation established a transatlantic service, and that the site was between Sydney and Louisbourg, N. S. He added that the site was ideal for an alternative base for the planned joint Imperial Airways-North American service, as ice-free conditions were available the year around.

Sir Philip said the government was aware of the land transfer, and that the possibility of utilizing the seaplane base being used by Imperial Airways would be considered. Facilities on British soil for the proposed service would be provided.

FIRST POST OF CALL
The first regular post of call of the service would be located in Newfoundland, Sir Philip continued.

CO-OPERATION PLEA MADE BY HON. V. MASSEY

Urges Continued Trading
Between Members Eng-
lish-Speaking World

LONDON, March 12.—Hon. Vincent Massey, Canadian commissioner to London, Wednesday urged continued trading and cultural co-operation between all the members of the English-speaking world.

Addressing the British-North American Club, Mr. Massey said: "At a time when democracy prevails on a diminishing portion of the earth, it has become all the more imperative as a unifying force in the Empire and the United States of America—countries where one can still say and do as one likes with impunity."

Canada is developing a national consciousness, while not building herself to the importance of recognizing diversity in view of language and legal procedure, and her interest as a unifying factor in the Empire, said the high commissioner. This diversity could be extended as a principle over a far wider area among the English-speaking peoples.

The recent Canadian-American reciprocal trade treaty would, he believed, bring mutual advantages.

Woman Testifies In Hold-Up Case

HULL, Que., March 12.—A vivacious little woman Wednesday turned King's evidence against a hold-up charge with the December 4 hold-up murder of an 18-year-old Hull bank clerk and related from the witness stand her experiences with an American gangster alleged to have been the trigger man in a \$6,619 robbery.

Laura Cole, 29-year-old mistress of Joe Rochon, one of the accused, said she drove the hold-up car to the Coady, Que., day after the day of the holding.

Miss Cole consented to testify for the crown after being assured a charge against her of being an accessory after the fact would be dropped.

The inscription on the American Liberty Bell may also be found in Leviticus 25:10 of the Bible.

DEBT BOARD STAFF SLASH NOW FORECAST

Hunted at by Attorney-
General When Estimates
Considered

Slash of the Debt Adjustment Board staff was forecast in the legislature on Wednesday by Hon. J. W. Huggill, K.C., attorney general, when his departmental estimates were being considered by the committee of supply.

The rubric was brought up when the Debt Adjustment Board appropriation was reached providing money totalling \$20,500, a reduction of \$20,500 over last year's appropriation.

SAVING EFFECTED
The reduction in appropriation includes the saving effected by dispensing with the services of two members of the board, who were retired following taking office by the present government. These two members, Ben Plummer and a bill clerk, were specified in the budget.

George H. Van Allen, K.C., Liberal, Edmonton, asked the minister if it was proposed to continue the board.

In reply the minister pointed out that at present a quorum of three members was being carried on, and he hoped before this session was concluded to bring in a bill providing for a permanent and permitting continuation of the board.

FURTHER SLASHING
He also pointed out that in view of the reduced estimate for this activity, further slashing of staff and services would be necessary—in the next few months at any rate. He stated that he hoped to employ clerks at specified district points, so that people would be saved the expense of coming into the cities to take up debt settlement matters.

Salary of William Loefer, chairman of the board, shown in the estimates as unchanged from last year, being \$4,250, or with statutory reduction, \$3,750.

The vote for salaries, clerks and stenographers is \$10,550, which is a decrease of \$18,000 over last year. Administration of the Act is against \$7,013 last year.

FUNERAL OF EARL BEATTY NEXT MONDAY

Body to be Laid at Rest in
Crypt of St. Paul's
Cathedral

LONDON, March 12.—Funeral services for Earl Beatty, whose death occurred Tuesday night, will be held at St. Paul's Cathedral next Monday and his body will be laid to rest in the crypt of St. Paul's, where Jelliffe was buried close to the tomb of Nelson.

The following reference to Beatty was contained in last night's court circular: "King George VI. has with profound regret of the death of Admiral of the Fleet Earl Beatty whose inspiring leadership of the Grand Fleet during the latter period of the war won for him the admiration and gratitude of the whole Empire."

Messages of condolence poured in today from many parts of the world, including the French and German governments. One of the first messages was from Queen Mary, who with the late King George always held the naval commander in the highest personal regard.

The death creates a parliamentary vacancy in Peckham, for which the Earl's son and successor in the peerage, Viscount Borsdale, was nominated.

Ship 1,000 Head Canadian Cattle Weekly To U.K.

MONTREAL, March 12.—Approximately 1,000 head of Canadian cattle will be shipped from Montreal to the British market every week during the coming shipping season.

A large number of the cattle, owned by the Government of Canada, will be shipped to the Dominion of Wales, on return from a Dominion tour as far west as Saskatchewan.

Efforts were being made to re-open the south Wales market, he said. The chances for an improvement in the situation were being sought as a result of shortage of fish cattle imported to the country.

Regular shipments of cattle from Canada to Britain must be assured, he said. If Canada were to continue as an important factor in the British market, gaps in shipping must be filled, he said. Prices might drop, but regularity was the only way to develop the British market.

Man Wounds Self In Police Cell

CALGARY, March 12.—While Calgary police officers tried to open a jammed cell lock at the city police station Wednesday and other persons observed, James Byrne, suffering from a superficial neck wound, made faces at the struggling officers.

Byrne, committed earlier in the day to the Alberta hospital, Ponoka, was taken to hospital after the police opened the cell door. He was reported in "favorable" condition.

Police were investigating how Byrne had been in possession of a pen-knife found in the cell. It was believed he hid the knife in a shoe when other articles were taken from him.

West Feed Barley Will Never Become Popular With East

TORONTO, March 12.—Western feed barley will never achieve popularity in the east until such a transatlantic market as seed is removed in the cleaning process, the national barley committee was told Wednesday by Prof. E. W. Crampson, professor of animal nutrition at Macdonald College, Quebec.

"As available commercially, the feed grades of western barley are penalized in feeding value and in popularity in eastern Canada because of the removal of seed, and other extraneous matter, at low or questionable nutritional value," he said.

THREE-DAY SPECIAL SHOW OF NEW CARS AT MILLS MOTORS

MANAGER
MILLS MOTORS

New Models are Eagerly
Awaited by Edmonton
and District

F. W. Mills, general manager of Mills Motors Limited, is especially enthusiastic about the new car models in the Studebaker and Packard lines.

With many of the new models already arrived, it has been decided to hold a special three-day show on Thursday, Friday and Saturday of this week in the Mills Motors showrooms at the corner of 105 street and Jasper avenue.

Both sedans and coupes will be on display, and many new features will be shown in these world-renowned automobiles. The Packard '36' embraces 12 different cars, although all these models will not be on display.

FIFTEEN CASES OF SMALLPOX

CALGARY, March 12.—Total number of smallpox cases since outbreak of the disease in Calgary three weeks ago rose to 15 last night when two more were reported. Three were found Tuesday. All 15

cases, except that of the girl who died Sunday, were of the mildest type.

Dr. W. H. Hill, city health officer, said all cases were progressing favorably.

Ontario Apples Will Be Scarce

WOODSTOCK, Ont., March 12.—Ontario apples will be decidedly scarce until the new crop comes in later in the year, officials of the

Oxford Fruit Co-operative report. The yield of standard varieties of winter apples was comparatively light last fall and most warehouses are completely cleared out. Oxford growers being an exception. British Columbia pippins are already making their appearance in the local fruit stores to supply the demand.

In spending three days at a modern metropolitan hotel, the average guest is served by at least 60 persons from bootblacks to man-of-war.

One of the features of the 1936 Packard is the new door hinge which does not sacrifice any room for entrance.

Another feature of the Packard is the method used for stamping the serial number of the car which precludes any possibility of alteration or falsification.

The 1936 Studebaker Dictator is powered with a brand new engine, a six, which develops 90 horsepower at 2,400 revolutions per minute.

Those interested will find the Studebaker equipped with many "mechanical brains" and other devices for safe and simple driving that are not found in any other make of car.

**BOXING BOUTS
ON SCHEDULE**

HERE TONIGHT

Four Jousts Arranged By

Sunnydale

Four bouts, headlined by Emil Lust and Yorkey Bentley, will be the boxing program arranged by the Sunnydale Athletic Club and

Three other good bouts have also been arranged. They will feature

Both of these will be fighting hard for the decision and the result should be a well-fought go.

Lust is a well-known battler here. He has fought Jimmy Blochlinger here and his performance was well liked by the large crowd which attended. Lust has also fought Gordon Wallace, Canadian champion in the welter class, and Tommie Blood.

The six round special has Bennie Tait, who is making a strong comeback matched against Teddy Curtis, of Minneapolis, and a last round

The action will start at 8:30 o'clock and complete arrangements have been arranged to accommodate a good crowd.

Scout Hockey

The 22nd troop turned in a winning 4-2 performance against the 6th crew last night in Scout hockey finals, while the 6th juniors turned back

Both games were played at the South Side rink and some fine hockey was exhibited by the youthful pucksters.
